Subject: Comments on Congressional Redistricting

I respectfully submit my recommendation to the Redistricting Subcommittee that the US House Districts be redrawn following the plan submitted by the House of Representatives. Both of the Senate plans represent an unacceptable division of Spartanburg County, the fourth most populous county in the state. The House version, while also dividing Spartanburg County, has the least impact. Any additional proposals presented should consider maintaining both Greenville County and Spartanburg County intact and in the separate 4th and 5th Districts respectively.

I thank the Subcommittee for this opportunity for comment and ask for your serious consideration of my concerns regarding minimizing the division of Spartanburg county across two districts.

Subject: 7th Congressional District

Senate Judiciary Committee,

I'm writing you in support of the SC House version of the redistricting plan and in opposition to the plans that have come out of the SC Senate.

The Grand Strand and the Pee Dee Region have a much more common bond than the Grand Strand does with Charleston. We are tied together much more culturally and economically and have historically been underrepresented in Washington, DC. In addition this region showed the most growth in the 2010 Census. As members of the NESA region we have been working together for economic development and it only makes logical sense to have the 7th Congressional District match what is already a functioning collective of counties.

As a business owner in the Grand Strand I am respectfully asking that you support the House version of redistricting and give this area the representation it has so long been without, but which it surely deserves.

Thank you for your consideration.

Subject: New District 7
Attachments: Facts about Charleston and MB.docx

Dear Mrs. Hammond,

I have researched The Richmond Fed, the US Bureau of Statistics, and the Myrtle Beach and Charleston Chamber of Commences to compile this information and come to my conclusion. The Myrtle Beach Metropolitan Statistical Area (MSA) is amongst the leaders in the State for GDP per capita without any major infrastructure. The new district should include all of the I-73 corridor counties, because of the shared infrastructure/shared benefit. Charleston has: 2 Interstates, 1 Interstate Bypass, 4 US Highways, 5 State Highways while Myrtle Beach has: 2 US Highways, 1 US Bypass, and 1 State Bypass. My question to the panel is what would Charleston be without 2 *i*nterstates? What would Myrtle Beach be with 1? What would Charleston be without the port? What could Georgetown be with a better port? Charleston has 2 trains while Myrtle Beach doesn't have any. There are two choices, but only one choice. Who gets the resources? Where is our infrastructure (North Coast)? Give us a vote! Let us in the fight!

The Houses version of District 7 would give Myrtle Beach and Georgetown an independent voice from Charleston (no more leftovers), and would combine all of the counties in the I-73 corridor.
We are currently one of the strongest producers of this States GDP without an interstate, a major port, trains, or military bases. Do we want economic growth for the State? Let's give the resources where they will yield the best results. Let us in the fight!

The essence of capitalism is true competition amongst rivals to create a market price that is both beneficial to the seller and acceptable to the buyer. Socialism believes that this process is too dangerous and encourages the rich to take advantage of the poor. Their solution is government control of assets so that they can distribute resources as they deem appropriate.

Our request is to let the proposed House District 7 compete for the resources that would provide us the infrastructure to be competitive in the future. Let us in the fight for these resources rather than accept our dole from our representatives in the more populous Southern part of the coast.

I've attached a copy of the raw data that I have compiled.

South Carolina as a Whole

Excellent Market Access and Infrastructure

South Carolina offers companies both exceptional infrastructure and geographical location. The state is located halfway between New York and Miami, and only a day's drive to 50 percent of the U.S.'s fastest growing markets.

South Carolina also boasts five interstates and nine commercial airports. And the state has an excellent railroad transportation system. CSX Transportation, Norfolk Southern and seven other affiliated and independent railroad companies provide availability for around-the-clock service.

The 2007 Comprehensive Annual Financial Report states that, although manufacturing still plays a big role in the State's economy, South Carolina's economic base has become more diversified including growth in leisure and hospitality, retail trade and service. Employment in the State's manufacturing sector has been declining and now represents only about 14%, a decrease from 16% over the past five years.
Non-durable goods manufacturing, primarily related to the textile and apparel industry, has seen the greatest decline over the past five years. Offsetting these declines was growth in the manufacturing of other goods, such as the production of transportation equipment, fabricated metals, and chemicals.
The strongest employment gains have been in the State's service sector which has risen from 34% of total employment to 37% during the past five years. This sector, fueled by tourism, educational, and healthcare industries has contributed to a more diversified overall employment base and improved income levels

Myrtle Beach's Economy

The Grand Strand has become a major tourist attraction along the Southeastern coast, with its primary city, Myrtle Beach, attracting over ten million visitors each season.

Myrtle Beach has rapidly developed into a major tourist destination in the Southeastern United States in the late 20th century and 2000s.[citation needed] The estimated 2009 population for the city is 31,968.[3] As of 2009, the metro area had an estimated population of 324,571.[4] According to the 2000 census, the area was the 13th fastest-growing metropolitan area in the United States.[5]
Hosting over 14.6 million visitors annually
1,900 restaurants
460 hotels,
Priceline.com ranked Myrtle Beach among its top 20 destinations for Fourth of July in 2010

The Myrtle Beach Boardwalk opened in 2010 and has been recognized as the nation's #3 boardwalk by *National Geographic* [22] and one of the best US boardwalks by Travel + Leisure magazine.[23]

Myrtle Beach has been called the "Golf Capital of the World" [38] because of the 120 golf courses located there, the record 4.2 million rounds played, and many miniature golf courses. 3.7 million total rounds of golf were played in 2007.[21]

Charleston's Economy

Economic sectors and major employers

Charleston is a major tourist destination, with a considerable number of luxury hotels, hotel chains, inns, and bed and breakfasts and a large number of award-winning restaurants and quality shopping. The city has two shipping terminals, owned and operated by the South Carolina Ports Authority, which are part of the fourth largest container seaport on the East Coast and the eighth largest container seaport in North America in 2009.[32] Charleston is becoming a prime location for information technology jobs and corporations, most notably Blackbaud, Modulant, CSS and Benefitfocus. Higher education is also an important sector in the local economy, with institutions such as the Medical University of South Carolina, College of Charleston, The Citadel, The Military College of South Carolina, and Charleston School of Law.

Charleston is also an important art destination, named a top 25 arts destination by AmericanStyle magazine.[33]

Major highways

- 17 U.S. Route 17
- 52 U.S. Route 52
- 52 Spur
- 78 U.S. Route 78
- 26 Interstate 26 (Eastern Terminus is in Charleston)
- 526 I-526
- 526 Business Spur 526
- 7 SC 7 - Sam Rittenberg Boulevard
- 30 SC 30 - James Island Expressway
- 61 SC 61 - St. Andrews Boulevard/Ashley River Road
- 171 SC 171 - Old Towne Road/Folly Road
- 700 SC 700 - Maybank Highway

Charleston's Port

One of South Carolina's most attractive features for manufacturers is the Port of Charleston. The port is the seventh largest container port in the U.S. and has been ranked first in customer satisfaction by *World Trade* magazine. With deep water and high bridges, the Port of Charleston is able to serve ships of up to 8,000TEU with only a 20-minute turnaround time for truckers. The port also boasts transit times of one to two hours, from open sea to dockside – the fastest on the East Coast.

South Carolina offers seamless connectivity amongst its various ports, railways, highways and airports. Each mode of transportation contributes to a vast network that can keep a business moving its products or raw materials smoothly. The state's extraordinary market access and quality infrastructure have led to an increase in distribution and logistics

operations. Today, there are approximately 260 distribution and logistics operations in South Carolina. Of those operations, at least 30 percent also operate through the Port of Charleston

Port

The Port of Charleston, owned and operated by the South Carolina Ports Authority, consists of five terminals. Two are in Charleston, on the Harbor. Two are on the Cooper River in the City of North Charleston and one is located on the Wando River in the Town of Mt. Pleasant. Despite occasional labor disputes, the port is ranked number one in customer satisfaction across North America by supply chain executives.[38] Port activity, behind tourism, is one of the leading source of Charleston's revenue. Union Pier also includes a cruise ship passenger terminal and hosts numerous cruise departures annually. In May 2010, the Carnival Fantasy was permanently stationed in Charleston, offering weekly cruises to the Bahamas and Key West, eventually to include Bermuda.[39] Celebrity Mercury also embarks from Charleston several times a year. With the addition of the weekly Carnival Fantasy sailings, Union Terminal will host 67 embarkations and ports of call in 2010.[40]

Terminals

- Columbus Street Terminal
- Union Pier Terminal - Soon to be transformed for cruise ship use only.

Rail transport

The Amtrak station is served by two Amtrak trains, the *Palmetto* and the *Silver Meteor*, operating between New York and Savannah, Georgia and Miami, Florida, respectively.[41]

Armed forces

Coast Guard

- Coast Guard Sector Charleston
- Coast Guard Station Charleston

Army

South Carolina Army National Guard

South Carolina State Guard 3BDE HHC (in Mount Pleasant) 5th/6th BN in North Charleston

ARGUMENT

The MB MSA is amongst the leader in the State for GDP per capita without any major infrastructure.

The new district should include all of the I-73 corridor counties = shared benefit/major infrastructure.

Charleston has: 2 Interstates, 1 Interstate Bypass, 4 US Highways, 5 State Highways
MB has: 2 US Highways, 1 US Bypass, and 1 State Bypass

What would Charleston be without 2 interstates / What would Myrtle Beach be with 1?

What would Charleston be without the port / What would Georgetown be with a better port?

Charleston has 2 trains / MB 0.

TWO CHOICES ONE CHOICE – Who gets the resources? Where is our infrastructure? Give us a vote! Let us in the fight!

CONCLUSION

The Houses version of District 7 would give MB and G-town an independent voice from Charleston (no more leftovers), and would combine all of the counties in the I-73 corridor.

We are currently one of the strongest producers of this States GDP without an interstate, a major port, trains, or military bases. Do we want economic growth for the State? Let's give the resources where they will yield the best results. Let us in the fight!

The essence of capitalism is true competition amongst rivals to create a market price that is both beneficial to the seller and acceptable to the buyer. Socialism believes that this process is too dangerous and encourages the rich to take advantage of the poor. Their solution is government control of assets so that they can distribute resources as they deem appropriate.

Our request is to let the proposed House District 7 compete for the resources that would provide us the infrastructure to be competitive in the future. Let us in the fight for these resources rather than accept our dole from our representatives in the more populous Southern part of the coast.

Subject: The South Strand Republican Club supports Rep Clemmons

Ms Debbie Hammond, Sec. to the Senate Judiciary Committee..

Please advise the Chairman and members of the Senate Judiciary Committee that the Board of Directors and members of the South Strand Republican Club, wishes to go on record as supporting the new 7th US Congressional district line as drafted by Rep Alan Clemmons. From what can be discerned by the Clemmons plan, Horry County will completely fall within the jurisdictional lines of the new 7th Congressional area. As Horry County continues to exponentially grow with a population explosion, it is incumbent upon the Senate Judiciary Committee to note this growth and consent to the people and residents such representation by a congress person. Again, the most jurisdictional sound and fairest method to set the district in the best legal position taking in the population growth plus constituency service would be the Clemmons proposal.
Thank you....

Subject: New District #7

Dear Debbie,

I have gone to several of the re-districting meetings held by Rep. Cleamons over the past several months. There is one and ONLY one sane conclusion: The house plan that includes Horry, Georgetown and the Pee Dee Region makes the most sense. I have lived in Murrells Inlet for 4+ years and even with housing coming to a virtual halt, this plan makes the most sense. Our needs are totally separate from the Charleston area. We also send too much money to Columbia not to have our own Representative especially since Tim Scott is from the Charleston area.. One factor to be considered is all of Charlestons' Tv & Radio markets do not apply to us nor do they reach us.

Thank you,

Michael Patten

I live in Myrtle Beach in Horry County and urge you to make all of Horry and the Pee Dee counties into a new District 7. The House voted to approve this and I urge you and the Senate to follow suit! Thank you, Jean Hampton, Myrtle Beach, SC.

June 20, 2011

Debbie Hammond
Senate Judiciary Committee Administrative Manager
Sub-Committee on Redistricting
Post Office Box 142
Columbia, South Carolina 29202

Dear Debbie,

The South Carolina Senate's two proposals for the new Congressional District plans are unacceptable to the people of Horry County Grand Strand and the Pee Dee region. The citizens of these areas do not want to be stifled by the Charleston stranglehold on our business opportunities. The Grand Strand and Pee Dee regions need separate representation for growth.

The Grand Strand and Pee Dee regions are the fastest growing areas of our state. This growth is going to continue as the national economy recovers and retirees move into our part of the state. The South Carolina House of Representatives have put together a plan that offers every area of the state economic growth potential, as well as planning for the future population growth.

In my opinion, neither of the Senate plans addresses these and other issues facing the northeastern part of our state. In fact, there is no recognition of the fact that the Grand Strand and Pee Dee are going to be the economic engine that drives the future of South Carolina.

To be that economic engine, we need I73. To improve Horry County wages to a living wage requires diversifying our business base to include light manufacturing jobs, high tech jobs, distribution jobs, transportation jobs and much more. The only way we can do that is to have a major highway such as I73 come to the Pee Dee and Grand Strand. To get the highway, we have been relying on a few people in significant leadership positions who also have other priorities in other parts of the state. It is now time that we need focused attention of a Congressional Representative on this area of our state.

Currently, in the First Congressional District, all of the focus has been on the Charleston area. For example, the amount of effort spent on I526 extension was a waste of the taxpayer's money and time. That effort would have helped only very a small segment of the state. I73 will provide a much greater impact for the state, improving business climate infrastructure in the Pee Dee and Grand Strand for new opportunities.

Without a major road such as I73, the Pee Dee and Grand Strand have very little hope of changing our economic outlook. The Senate plans will relegate the Pee Dee and Grand Strand areas to continued lost opportunities and low wages. Most businesses looking to relocate to the Grand Strand and Pee Dee regions want access to major highways and the other infrastructure that brings before they will move to this area.

If the Grand Strand and Pee Dee remain in the First Congressional District as portrayed by the two Senate proposals, then the South Carolina Senate is not looking out for the best interests or potential growth opportunities of our state.

The House plan (H3992), the Mulvaney-Wilson and the Clyburn 2 plans are much better congressional plans than either of the Senate's plans. These plans follow more of the natural boundaries of counties and groups together parts of the state with similar economic directions. The best of these is the House plan.

Each member of the South Carolina Senate has an obligation to look out for the best interests of the citizens of the state. Not coming to a reasonable agreement on the new Congressional District and allowing the United States Department of Justice draw our districts is an abdication of your responsibility. We urge you to draw the new Congressional District where it serves the state best. The best area for the new district is in the northeast corner of our state.

Respectfully,

Bren

Here is my statement:

Here are my observations as a voter. First, I hoped that when the leadership of the House formed the House Committee to develop the House Plan that they took the responsibility seriously, and appointed members and a chairman that would do a good job. Second, I see from the current situation, that the leadership of the House either did not take their appointment of the committee seriously, or something went drastically wrong on the committee. Third, I followed the actions of the committee, and even attended and had input at one of the meetings, so I saw firsthand that the members were truly interested in hearing from the voters. Fourth, the late timing on the leadership's decision to scrap the committee plan and re-do things is obviously a political game. I do not pretend to be able to know the exact motivation behind the game, but by looking at the absurd boundaries of the revised plan (see the sliver of gerrymandering in the northeastern part of the state) it is clear to me that the revised plan is based on anything but diligent effort to make the new district fit the new circumstances. Fifth, I would like to remind all members who will be voting on which plan goes forward that the Constitution of South Carolina requires that all elected legislators and other high officials all affirm their belief in God. And last, but not least, I would like to remind you all that God operates with a higher standard of laws and principals than even the Constitution; and one of those laws is, "Do not be deceived, God is not mocked, for whatever a man sows, that he will also reap." [Gal 6:8, NKJV]

To whom it may concern,

My family and I do NOT support the senate version of district plan.

We support the House plan which give Horry, Florence, Marion, Marlboro, Dillion and Georgetown the new (old Pee Dee) seventh district.

For far too long Horry and Georgetown have had to play second fiddle to the whims and wishes of Charleston. The House plan with the new seventh district in the Pee Dee area allows our voice to be heard going forward.
